EXPERIENCE FOUNTAIN HILLS

The centerpiece of Fountain Hills is our beautiful fountain which is one of the world's tallest man-made fountains. It serves as a focal point for the community and attracts thousands of visitors each year.

The fountain was built in 1970 by Robert McCulloch the year before reconstruction of the London Bridge in Lake Havasu City, another of McCulloch's projects. The fountain sprays water for about fifteen minutes every hour at the top of the hour. The plume rises from a concrete water lily sculpture in the center of a large man-made lake.

Fountain Hills offers an escape for locals and visitors alike, with spectacular year-round outdoor recreation and quality events throughout the year from art and wine festivals, to live music, to cultural celebrations.
